Three Quick Favors

In just a few days time,
Guadalupe has obtained three
favors for me.

In just a few days time, Guadalupe
has obtained three favors for me.

I asked through her intercession that
a woman I work alongside would
recover without an operation from a
back problem that had left her
incapacitated; that she help me
contact a friend I hadn't heard from
for a long time and who has begun to

draw close to God with her family; and that another friend of mine would become pregnant, after she and her husband had been trying for a long time to have a child.

I usually pass on to her the requests for prayers that I receive, so that she will intercede for these needs, but such a rapid response has left me amazed.
