---

“We would be off-course if we thought that saints were the exceptions of humanity: a sort of restricted circle of champions who live beyond the limits of our species. Instead, from the perspective we have just introduced regarding virtues, saints are people who become themselves fully, who fulfil the vocation proper to every man or woman. What a happy world it would be if justice, respect, mutual benevolence, kindness of heart and hope were the shared normality, and not a rare anomaly!”
