An App to Participate in Guadalupe's Beatification

This app provides help to prepare for and participate digitally in Guadalupe's beatification ceremony on May 18th.

05/01/2019

Available in English and Spanish, this application for the Beatification of Guadalupe Ortiz de Landázuri will allow pilgrims to experience and

participate in her beatification from any location. You can find out more about Guadalupe as you follow in her footsteps through Madrid in a digital way.

The app will take you through three stages: Preparation, Traveling and Madrid. The materials made available in each stage (including a virtual map of Madrid marking the sites relevant to Guadalupe's life, together with videos and multimedia) will simulate the experience of a pilgrimage, so you can live the beatification from wherever you are.
